Main Image: 650px x 200px

Your Headline Text

Here is where you would place your text to explain what you are offering to the email recipient. You could **bold** or *italic* this text to add emphasis. You can also use different colors or font sizes for interest.

Header Text

Headers are used to separate content. You can even use [hyperlinks](#) throughout to pages on your website. On the right side you can show pictures of what you are offering. These images should be 200px wide but the height and amount of images can vary.

- Here's a bullet list.
- This is another way to show content.

You can customize all the colors to match your branding.
